

1967 Ford Mustang Hardtop Coupe

289-cubic inch/ 2-Venturi Carburetor V-8 with 200-bhp and Auto Transmission with 125674 miles

"I got it about 3 years ago and did some work on it but not much."

Other features included:

- An all-new lower sheet metal appearance that made it look bigger and more aggressive.
- A larger, deeper grille
- Sculptured side panels ending in twin simulated air scoops
- Concave rear panel
- New wheel covers with a blade motif provided instant recognition.
- More power was also available in the form of an optional 320-bhp 390 V-8.
